

Annual InfoSec Meeting at the United Nations, June 3, 2004

Best Information Security Practices and Solutions for Today's Global Challenges

Meeting at a Glance:

There are easy ways, and there are right ways, to secure your organization's infrastructure and confidential information.

Whether it's financial, government, military, or marketing information you need to secure, if you take a short cut, the information can easily be compromised.

This Meeting's goal is to help point you toward the proper security solutions, while providing information on the different threats that await a careless attitude toward Information Security.

Key Learning Points for Executives, Diplomats, and Officials:

Developments in "ID Theft and the Internet"	Information Security Risk Management
The Rising Cyber Terrorism Threat	Reporting and Combating Cybercrime
Emerging Trends in Data Center Infrastructure	User Provisioning: Increase Security & Lower Costs
Configuration Management	Infrastructure Design for Survivability-trends & practices

When and Where:

Thursday, 9.00AM – 5.00PM, June 3, 2004 (tabletop exhibits open at 9.00AM)

United Nations Premises: Conference Room 3, East 46th Street at 1st Avenue, New York City

Special and Guest Speakers:

The Honorable Frank Libutti
Under Secretary, IAIP
US Dept of Homeland Security
Lt. General, USMC, Retired

Marjatta Rasi
Permanent Representative
Finland to the United Nations, &
President, UN ECOSOC

Victor Camilleri
Permanent Representative
Malta to the United Nations, &
Chairman, UN ECOSOC
Working Group on Informatics

Robert V. Caltabiano
ATSAIC
U.S. Secret Service

Mike Lackey
President
AIT and the AIT Forum

Sarbuland Khan
Exec. Coordinator
UN ICT Task Force

Scott S. Christie, Esq.
Assistant US Attorney
New Jersey District

Expert Speakers from the Following Sectors:

Gold Cosponsors

Configuresoft
Psynapse Technologies

Silver Cosponsors

Acentech, Inc.
APC
Black Dragon Software

Media Cosponsors

BlinnPR
Computerworld
Homeland Defense Journal
Infoworld

University Participants

New York University
Yale University

Knowledge Sector Participants

ISSA (International System
Security Association, Int'l.)
NYCNUG
Media Comm. Assoc. Int'l.

Annual InfoSec Meeting, June 3, 2004

Welcome Colleagues and Friends,

On behalf of Sarbuland Khan, Executive Coordinator of the United Nations ICT Task Force, I'd like to welcome you to this year's United Nations *Annual Security Meeting*.

The *Meeting* will include Sessions on Developments in ID Theft and the Internet, The Rising Cyber Terrorism Threat, Emerging Trends in User Provisioning, Data Center Infrastructure, Configuration Management, Information Security Risk Management, Reporting and Combating Cybercrime, Infrastructure Design for Survivability, and more. The Meeting's theme is *Best Information Security Practices and Solutions for Today's Global Threats*.

Our presenters will provide the most current information on emerging trends and solutions for public and private sector information security and infrastructure applications.

BACKGROUND:

AIT has coordinated with the UN Community, since 1988, to organize and manage an ongoing series of high-level IT Meetings and Events for Diplomats, Officials, and Business Sector Executives.

Annual IT Meetings range from 600 – 1,000 attendees, with the largest being for the *UN ECOSOC 2000 High Level IT Segment* that over 8,000 people attended from every Nation. Attendees included hundreds of Ministers and Ambassadors, and a number of Heads of State. The UN ICT Task Force and AIT also coordinate UN General Assembly *Heads of Delegation* and *Ambassador level Working Breakfasts and Luncheons*, and *Receptions*. Leaders from the private sector, the knowledge sector, and major universities provide the latest national and enterprise level solutions for the UN General Assembly's Heads of Delegation and Foreign Ministers.

REVIEW OF LAST YEAR'S ANNUAL INFOSEC MEETING:

Last year's *Annual Security Meeting* took place on September 11, 2003, and drew a powerful group of over 750 attendees from 120 Nations and 25 US States. The audience included 93 UN Ambassadors, 25 Ministers or Minister Consuls, 41 Presidents, 24 Chief Corporate Officers (CEO, CISO, CITO, etc.), 70 Senior Vice Presidents and Vice Presidents, 88 Directors, 5 General Managers, 12 Engineers, 147 Managers, and 33 members of the press. One-half of the audience included senior decision and policy makers at the National Government and Corporate Levels.

We look forward to your being with us, and know you will leave with valuable knowledge to help secure your data, information, and infrastructure.

Mike Lackey
President
AIT

Annual InfoSec Meeting, June 3, 2004

WHAT YOU WILL LEARN:

Attendees will learn about the latest threats, techniques, applications, and solutions, to address their organization's information and cyber security terrorism needs. This Meeting will provide the knowledge needed to plan for and successfully address a bewildering array of security compromises.

ATTENDEE BENEFITS:

No one has time to waste – or to spend in countless research weeks – looking for answers in today's downsized climate. This Meeting will provide a pre-screened group of solutions. You will learn how others plan and successfully secure their infrastructure from info-security attacks, hackers, or malevolent former employees.

INFORMATION AND CYBER SECURITY:

All governments and businesses, from the largest to the smallest, store valuable information. This information can range from medical records, to legal records, to military secrets, to patents, and more. The "threat" could be a computer or network virus, or much worse. The key is to "know" these threats, and how to counter them.

A FEW COMMENTS FROM PRIOR ATTENDEES AND PRESENTERS:

-- Steve Forbes, President and CEO, Forbes, Inc. Editor-In-Chief, Forbes Magazine:

I much enjoyed the opportunity to speak to such a distinguished group—congratulations on bringing them together!

--- Jack Arthur, Assistant Director For Administration, Executive Office of the President, Washington DC

The outstanding effort you have expended is apparent in the (conference) sessions.

--- Rudy Giuliani, Mayor of New York City:

It is my pleasure to send warm greetings to everyone attending the AIT Reception for City Harvest. It is always a pleasure to unite with organizations such as yours, and I appreciate having the opportunity to do so tonight.

--- Gary Beach, Group President and Publisher, CIO, CSO, and Darwin Magazines, IDG Publications:

AIT events are always well organized. And, they attract the most influential members of the United Nations (and the Public and Business Sectors) interested in key issues facing the information technology community.

UPCOMING IT MEETINGS FOR DEVELOPMENT AT THE UNITED NATIONS:

June 29, 2004 – Working Breakfast in Honor of Foreign Ministers, in conjunction with the ECOSOC 2004 Meeting. Topic: "The Challenge of Providing New Public and Private Sector 'Secure' Services, Quickly and Efficiently, to an Expanding User Base while Dealing with Budget Constraints." Platinum Cosponsor - Infoworld; Gold Cosponsors - IBM and Configuresoft.

June 30, 2004 - Working Breakfast in Honor of Foreign Ministers, in conjunction with the ECOSOC 2004 Meeting. Topic: "IT Infrastructure for Nations and Businesses, that's Key to Global Economic, Business, and Social Development." We'll discuss the evolution of Fiber Optic communications, including design, implementation, operations, and applications, plus its impact on cost reduction and enhanced network performance. Co-Platinum Cosponsors - Adva Optical Networking, TGC Global Inc., and Computerworld.

September (tba), 2004 - The Annual Wireless Meeting: We'll cover all aspects of wireless communications, including voice, data and video, including emerging applications and wireless benefits

October (tba), 2004 - Working Luncheon in Honor of Heads of Delegations from Capitols, in conjunction with the General Assembly Meeting for 2004-2005: We'll discuss various IT for Development Themes, including Voice Over Internet Protocol, Cost Savings, Internet Diplomacy, Internetworking, Wireless, Information Security, Overseas Investment in IT Initiatives, and more.

Fall-Winter 2004-2005 – AIT's Madison Square Garden Breakfast Seminars with Exhibits: These popular events will pick up again in the fall, and will once more feature Expert Presenters, Exhibits, Timely Topics, Objective Learning Points, Breakfast, and Outstanding Networking with other IT and Management Executives.

Annual InfoSec Meeting Schedule, Morning, June 3

United Nations Premises, Conference Room 3, 9.30AM - 1.10 PM

Annual Information Security Meeting, Morning Session:

Best Information Security Practices and Solutions for Today's Global Challenges

8.00-9.30	Registration; tabletop displays open at 9.00 AM, coffee is available in the nearby Viennese Café
9.30-10.00	Welcome and Opening Remarks: Marjatta Rasi, Ambassador and Permanent Representative of Finland to the United Nations; and, President, UN ECOSOC; Sarbuland Khan, Executive Coordinator, UN ICT Task Force; and, Mike Lackey, President, AIT.
10.00-10.30	The Honorable Frank Libutti, Under Secretary of the Information Analysis and Infrastructure Protection (IAIP) Directorate of the Department of Homeland Security (DHS), will discuss, "An Overview of the Department of Homeland Security's Efforts to Secure Cyberspace."
10.30-10.55	Gary Jackson, PhD, Chief Executive Officer, Psynapse Technologies, will discuss, "The Rising Cyber Terrorism Threat: Be Prepared or be Sorry." Cyber Terrorism threat, both potential and realized, is increasing on a daily basis. Unparalleled losses are occurring across a multitude of targets. Dr. Jackson will discuss the seriousness on the cyber terrorism threat, projected damage, and the degree to which such threat may be mitigated.
10.55-11.15	Douglas E. Dormer, President & CEO, Black Dragon Software, will discuss, "Information Security Risk Measurement: a key to promoting business development and community stability in the global economy." Doug will discuss recent examples where the Internet fostered economic development and stability in emerging nations; a model where asymmetric economic development may create alternatives to fundamentalist extremism; Information Security Risk Measurement; and, an understanding of the role which Information Security Risk Measurement can play in support of economic development to promote community stability and security.
11.15-11.30	Break
11.30-12.10	Expert Panel: Moderator, Paul Calento, VP, Infoworld. Topic: "The Rising Cyber Terrorism Threat." We'll discuss where the threat is evident; how companies are addressing the threat; a look at the infrastructure shortcomings of some companies; and, best practices. Panelists: Gary Jackson, PhD, Chief Executive Officer, Psynapse Technologies Chad Cook, Chief Technology Officer, Black Dragon Software Ernest J. Schirmer, Director of Technology Consulting, Acentech, Inc. Robert V. Caltabiano, US Secret Service Sean Jameson, Chief Information Technologies Officer, New York University
12.10-12.30	Ernest J. Schirmer, Director of Technology Consulting, Acentech, Inc., will discuss, "Infrastructure Design for Survivability: trends and practices." The past few years have seen significant progress regarding new standards for copper and fiber optic telecommunications cabling. As a result, it is now possible to design one cabling system to support integrated intelligent buildings capable of utilizing industry standard hardware and protocols. However, this degree of system integration requires a correspondingly robust infrastructure to ensure uninterrupted systems availability during not only planned outages for maintenance and repair operations, but unplanned system failures, as well.
12.30-12.50	Robert V. Caltabiano, ATSAIC (Assistant to the Special Agent in Charge), New York Field Office, U.S. Secret Service. Agent Caltabiano will discuss, "Recent Trends in Identity Theft and the Internet." ATSAIC Caltabiano will provide attendees an overview of recent statistics pertaining to identity theft. He will also provide information about common scams and schemes to steal a person's identity and their money.
12.50-1.10	Brad Hildreth, Vice President, Information Security Consulting, AIT, will present "User Provisioning: Increasing Security While Lowering Costs." Increasing numbers of enterprises are embracing Automated Account Administration/Provisioning due to its increased security through better managing of authorizations, cost reductions and the ability to meet stringent Service Level Agreements. If you are struggling to meet new regulatory requirements on a tight budget, you won't want to miss this.

Annual InfoSec Meeting Schedule, Afternoon, June 3

United Nations Premises, Conference Room 3, 2.30PM - 5.00 PM

Annual Information Security Meeting, Afternoon Session:

Best Information Security Practices and Solutions for Today's Global Challenges

1.10-2.20	Lunch (Private Sector Attendees, please take lunch on your own. There are a number of excellent restaurants in the area, as shown in the informal Directory of Restaurants in the UN Vicinity you received with your Confirmation to Attend the Annual InfoSec Meeting. Please KEEP your UN Security Badge to gain re-entry to the UN, and allow time to again go through UN Security, so you return in time for the afternoon session's Opening Ceremonies.)
2.20-2.30	Attendees return to Conference Room 3 for Afternoon Keynote Presentations.
2.30-2.40	Welcome Back: Victor Camilleri, Ambassador and Permanent Representative of Malta to the United Nations; and, Chair, UN ECOSOC Working Group on Informatics; Eduardo Blinder, Director, UN ITSD; and, Mike Lackey, President, AIT.
2.40-3.00	Scott S. Christie, Esq., Assistant US Attorney, District of New Jersey, will discuss "Combating Cybercrime." Learn how to report Cybercrime and assist law enforcement authorities in a manner that maximizes the potential for a successful criminal prosecution. Hear tips to protect your computer network from Cybercrime and emerging Cybercrime trends.
3.00-3.25	Dennis R. Moreau, Chief Technology Officer, Configuresoft, will discuss, "Achieving More Comprehensive Information Security through the Application of Configuration Management Techniques." Patch Management is only part of the information security story. Emerging Enterprise Configuration Management (ECM) technology supports a more comprehensive approach to achieving Information Security. By leveraging configuration information to better focus IT resources and responses, ECM shrinks vulnerability windows.
3.25-3.40	Break
3.40-4.00	Wahid Nawabi, Director, Worldwide Enterprise Segment, APC, will discuss, "Emerging Trends and Technologies in Data Center Infrastructure." Wahid will explain how to reduce your overall IT CAPEX (Information Technologies and Capital Expenditures) and OPEX (Operating Expenditures) through the latest trends and technologies in data center infrastructure, while maintaining state-of-the-art IT infrastructure to support business needs. You'll pick-up essential knowledge of how to optimally build, maintain, and manage an enterprise IT physical infrastructure by utilizing the latest trends in data center power and cooling.
4.00-4.40	Expert Panel: Moderator, Tom Hoffman, Editor at Large, Computerworld Topic: "Configuring your IT Infrastructure, Applications, and Policies to Promote a More Secure Computing Environment." We'll discuss the nuts and bolts of setting up your internal and external infrastructure, developing a set of solutions for continuity, and collaborating with the proper authorities in the event of a possible or actual InfoSec Compromise. Panelists: Dennis R. Moreau, Chief Technology Officer, Configuresoft Wahid Nawabi, Director, Worldwide Enterprise Segment, APC Stephen Scharf, VP Communication, ISSA International Morrow Long, Chief Information Security Officer, Yale University Scott S. Christie, Esq., Assistant US Attorney, District of New Jersey
4.40-5.00	End-of-Day Statements: Ambassador Marjatta Rasi (t), Sarbuland Khan; UN ICT Task Force; and, Mike Lackey, AIT

Annual InfoSec Meeting, June 3, 2004

ORGANIZING AND SPECIAL GROUPS:

UN ECOSOC (United Nations Economic and Social Council) (<http://www.un.org/esa/coordination/ecosoc/charter.htm>): The Economic and Social Council was established as the principal organ, under the authority of the General Assembly, to promote: (a) higher standards of living, full employment, and conditions of economic and social progress and development; (b) solutions of international economic, social, health, and related problems; and international cultural and educational cooperation; and (c) universal respect for, and observance of, human rights and fundamental freedoms for all without distinction as to race, sex, language, or religion.

United Nations ICT Task Force (<http://www.unicttaskforce.org>): The objective of this Task Force is to “provide overall leadership to the UN role in helping to formulate strategies for the development of information and communication technologies and putting those technologies at the service of development and, on the basis of consultations with all stakeholders and Member States, forging a strategic partnership between the United Nations system, private industry and financing trusts and foundations, donors, programme countries and other relevant stakeholders in accordance with relevant United Nations resolutions.”

United Nations ECOSOC Working Group on Informatics (www.un.org): The objective of the Working Group on Informatics is to act as an active bridge between the UN, Permanent Missions, and the UN ICT Task Force, in the task of bridging the digital divide.

AIT Global Inc. (www.aitglobal.com): AIT, founded in 1986 with the State University of New York at Farmingdale, is a global association of information technologies professionals that organizes high-level Information Technologies (IT) and Security Meetings, and Conferences, for its Membership - Forbes 500 IT professionals - and for Diplomats, Officials, and others in the UN Community.

Keynote Presenter: Brad Hildreth is Vice President of Information Security for AIT. He has 20 years of Information Security experience spanning NSA, Wall Street, and Gartner Group. His consulting engagements have included projects for the Department of Defense and the United Nations.

PRIVATE SECTOR EXHIBITOR/PRESENTERS, COSPONSORS:

Gold Level:

Configuresoft, Inc. (www.configuresoft.com)

Configuresoft provides the world's leading companies with software for maintaining granular, end-to-end control over system configurations on Windows-based servers, desktops, and mobile systems. Eight of the 25 largest companies in the world use Configuresoft software.

Keynote Presenter: Dennis R. Moreau, Ph.D., Chief Technical Officer, has more than 20 years of experience in designing, developing and managing complex enterprise software systems. He has also been a co-founder and researcher within a number of advanced computational/software research laboratories.

Psynapse Technologies (www.psynapsetech.com): Psynapse Technologies is an advanced security solutions company that integrates the behavioral and computer sciences to assist organizations in protecting against financial and information loss. Psynapse's highly accomplished scientists and engineers develop new automated technologies to proactively identify harmful behavior to counter threats more effectively and with less staff intervention.

Keynote Presenter: Gary M. Jackson, PhD, President & Chief Executive Officer, specializes in fusing the computer and behavioral sciences, and has designed numerous next generation security applications for government and business.

Silver Level:

Acentech, Inc. (www.acentech.com): Acentech is a 58-year old multidisciplinary engineering consulting firm with offices in Cambridge, MA; Thousand Oaks, CA; and Trevese (Philadelphia), PA specializing in acoustics, mechanical noise and vibration, environmental and industrial noise, structural dynamics, audio-visual systems and information and building technologies.

Keynote Presenter: Ernest J. Schirmer, Director of Technology Consulting. His project experience includes the design of the NYC Office of Emergency Management Command and Control Center, and the Petronas Twin Towers in Malaysia. He is a former chairman of the CABA Task Force 3 on intelligent buildings systems, and a BICSI registered Cable Distribution Designer and LAN Specialist.

APC (www.apc.com): American Power Conversion is a worldwide leader in the designing, manufacturing, and marketing of power solutions for *Nonstop Networking*TM. APC's comprehensive range of products include surge suppressors, uninterruptible power supplies (UPS), DC power systems, racks and enclosures, cables, power conditioning equipment, and related software for telecom, datacom, computer and computer-related equipment.

Keynote Presenter: Wahid Nawabi, Director- Worldwide Enterprise Segment, has extensive experience in both large and small organizations to improve their overall enterprise IT infrastructure availability. He holds a B.S. in Electrical Engineering from University of Maryland in College Park, Maryland.

Black Dragon Software (www.blackdragonsoftware.com): Black Dragon Software is a leading, innovative company that is developing and communicating a compelling vision of the future for Security Risk Measurement. Black Dragon motivates and inspires the world of IT security.

Keynote Presenter: Douglas Dormer, Chief Executive Officer, has overall responsibility for all aspects of Black Dragon Software's business operations. As a C.P.A. and Certified Treasury Professional, Mr. Dormer is a seasoned executive with considerable experience as an enterprise leader and manager in both start-up and publicly traded environments.

Expert Panelist: Chad L. Cook, Chief Technology Officer

MEDIA COSPONSORS:

Computerworld, an IDG Publication (www.computerworld.com): *Computerworld* is the flagship weekly newspaper of International Data Group, one of the largest publishers of IT magazines and newspapers in the world.

Panel Moderator: Tom Hoffman is Editor-at-Large at Computerworld, where he is responsible for driving the publication's coverage of IT investment issues, including ROI, budgeting, procurement, licensing, asset management and TCO.

Annual InfoSec Meeting, June 3, 2004

Infoworld, an IDG Publication (www.infoworld.com): InfoWorld provides specialized IT coverage for the CTO, senior-most company executives who are deeply steeped in technology expertise and experience. InfoWorld Media Group is a division of [IDG](http://www.idg.com), the world's leading technology media, research, and Event Company.

Panel Moderator: Paul Calento is Vice President Marketing at Infoworld.

BlinnPR (www.blinnpr.com) BlinnPR provides PR services to technology, financial service, and life science firms. They combine the focus of a boutique PR firm, working smarter, faster and more effectively for you - with a large firm's experience.

KNOWLEDGE SECTOR PARTICIPANTS:

Homeland Defense Journal (www.homelanddefensejournal.com): Homeland Defense Journal and Homeland Defense Journal Online, together, seek to facilitate communication among all levels of government concerned with homeland security, covering the issues and the technology, solutions, policies, people, case studies and events affecting that community.

ISSA (www.issa.org): The Information Systems Security Association, Inc., is a not-for-profit international organization of information security professionals and practitioners. It provides educational forums, publications, and peer interaction opportunities that enhance the knowledge, skill, and professional growth of its members.

Expert Panelist: Stephen Scharf, as ISSA International's VP Communication, is responsible for marketing communications.

Yale University, the Yale School of Management (<http://mba.yale.edu/>): The mission of the Yale School of Management is to educate leaders for business and society. Our goal is to prepare men and women who will be leaders in their organizations and entrepreneurial ventures, and who will be leaders in their communities.

Expert Panelist: Morrow Long, as Yale's Information Security Officer, is responsible for all aspects of InfoSec at Yale.

New York City Nortel User Group (NYCNUG) (www.nycnug.com): The NYCNUG's Mission statement is to educate, develop, and inform members in all areas of telecommunications with an emphasis on the Nortel Networks product line.

New York University (www.nyu.edu): Founded in 1831, New York University is one of the largest private universities in the United States. The University, which includes 14 schools and colleges, occupies six major centers in Manhattan.

Expert Panelist: Sean Jameson, as Chief Information Technologies Officer, is responsible for all aspects of IT at NYU.

The Media Communications Association - International (www.mcainy.org): The Media Communications Association, International, is a global community of media communications professionals devoted to the business and art of visual communication.

UNITED STATES GOVERNMENT PARTICIPANTS:

US Department of Homeland Security (www.dhs.gov): The National Strategy for Homeland Security and the Homeland Security Act of 2002 served to mobilize and organize our nation to secure the homeland from terrorist attacks. This exceedingly complex mission requires a focused effort from our entire society if we are to be successful. To this end, one primary reason for the establishment of the Department of Homeland Security was to provide the unifying core for the vast national network of organizations and institutions involved in efforts to secure our nation. The mission of DHS is to lead the unified national effort to secure America, to prevent and deter terrorist attacks and protect against and respond to threats and hazards to the nation, and ensure safe and secure borders, welcome lawful immigrants and visitors, and promote the free-flow of commerce.

Special Guest Speaker: Frank Libutti, Under Secretary for Information Analysis and Infrastructure Protection was confirmed by unanimous vote of the Senate in June 2003 as Under Secretary for Information Analysis and Infrastructure Protection. Prior to his confirmation as Under Secretary, Libutti served as the New York City Police Department's Deputy Commissioner of Counter-Terrorism. His mission was to plan and direct NYPD's efforts in preventing, responding to, and investigating acts of terrorism in the City of New York. He served in this capacity from January 2002 to May 2003. Prior to his confirmation as Under Secretary, Libutti served as the New York City Police Department's Deputy Commissioner of Counter-Terrorism. Prior to NYPD, Under Secretary Libutti had a long and distinguished career in the Marine Corps, retiring in October 2001 as a Lieutenant General. Prior to NYPD, Under Secretary Libutti had a long and distinguished career in the Marine Corps, retiring in October 2001 as a Lieutenant General. After graduating from The Citadel in 1966, he attended the Officer Candidate Course in August 1966 and was commissioned in October of that year. He then served as an Infantry Platoon Commander in Viet Nam. His last assignment before retiring from the Marine Corps was as the Commanding General, U.S. Marine Forces Pacific and Commanding General, Marine Forces Central Command. His many personal awards include the Defense Distinguished Service Medal, the Distinguished Service Medal, Silver Star Medal, Defense Superior Service Medal (with two palms), Legion of Merit (with gold star), Purple Heart (with two stars), Navy and Marine Corps Commendation Medal, Republic of Korea Chonsu Medal, and the Combat Action Ribbon. He was also presented with the Order of the Rising Sun Gold and Silver Star by the Emperor of Japan for service dedicated to the security of Japan and the mutual cooperation between Japan and the United States. Following his retirement from the USMC, Under Secretary Libutti served as Special Assistant for Homeland Security at the Department of Defense. In May 2001, he received an honorary Doctorate degree from his alma mater, The Citadel.

Guest Speaker: Robert V. Caltabiano, US Secret Service. Bob has over 16 years of Government service, of which the last 14 were with the Secret Service. ATSAIC (Assistant to the Special Agent in Charge) Caltabiano was one of the original members of the New York Electronic Crimes Task Force, forging multiple new investigative techniques.

US Department of the Treasury (www.ustreas.gov): The U.S. Attorney's Office for the District of New Jersey investigates and prosecutes federal criminal cases in New Jersey on behalf of the U.S. Department of Justice.

Guest Speaker: Scott S. Christie, Esq., Assistant U.S. Attorney, Computer and Telecommunications Coordinator. Mr. Christie is a veteran prosecutor of computer, telecommunications and intellectual property crime at the U.S. Attorney's Office for the District of New Jersey.

Highlights From Some Prior Annual Meetings (see www.aitglobal.com, for more information)

July 5-7, 2000: UN ECOSOC High Level IT Meeting, United Nations HQs, NYC. AIT worked closely within the guidelines set by Ambassador Makarim Wibisono (Indonesia), ECOSOC President, to assist in the setting up of the IT Exhibits and in coordinating the ECOSOC presentations by many of the IT Expert Speakers, for 9,000 global ministers, dignitaries, diplomats, and officials.

Over 9,000 attendees viewed the IT Meeting Exhibit Area.

AIT worked with Ambassador Wibisono to develop the unique opening ceremonies for the IT Exhibits at the IT Meeting.

Ambassador Wibisono, Deputy Secretary-General Louise Fréchette, and AIT's Mike Lackey visit the IT Exhibits.

March 30, 2001: Annual InfoSec Meeting, UN HQs, NYC. The March 30, 2001 InfoSec Meeting was a smashing success, with 600 plus attendees from the UN and Private Sectors. 60 Ambassadors and additional Diplomats represented the needs of 80 Nations.

Special Guest Speaker Howard A. Schmidt, International President of the Information Systems Security Association (ISSA) gave a scintillating presentation on Information Assurance to the Diplomats and Private Sector executives in the audience.

The audience became a "part of" the Annual InfoSec Meeting proceedings as soon as the Meeting opened!

Feb. 26-27, 2002: Annual E-commerce Meeting, UN HQs, NYC. The Meeting presented an enormous amount of information, for over 850 attendees from the UN and Private Sectors, including 93 Ambassadors and additional Diplomats from 123 Nations.

Ambassador Jalang'o and Mike Lackey flank Special Guest Speaker Steve Forbes who provided a high level presentation on "Growth and Technology-What is Coming for the Global Economy?"

AIT's Carol Lackey was honored to meet Special Guest Speaker Commissioner Bernard B. Kerik, KBE, who provided the heart and soul for NYC Police Department before, during, and after 9/11.

June 18, 2002: First Ever UN General Assembly Meeting Devoted to ICT for Development, UN HQs, NYC.

AIT coordinated with Ambassador Bob F. Jalang'o to organize the Working Breakfast, held in conjunction with the UN GA Meeting, with attendance from over 130 Heads of Delegation.

Head Table Dignitaries and Delegates surround AIT's Carol Lackey. Left to right - Nitin Desai, Robert Callahan, Minister Isoun, Minister Lopes, Vince Steckler, Paul De Zan, Mike Lackey, Mike Miller, Douglas Batt, Ambassador Jalang'o.

Heads of Delegation in attendance represented the interests of 130 Nations.
